MESSAGE:

Don:

I am available to meet with the attorney, at your convenience. Just give me a little advance notice.

Based on diving reconnaissance today, it is obvious that barges are grounding on the pile of material, as the top is perfectly flat.

Light was good for underwater video. Brought up two piles of sample material. Hang on to it for a while, if possible.

Pam Erstad (WDFW) will be back in her office on Monday. We will schedule a meeting then. Hopefully we can review the video in advance.

Keep in touch. We are working on a couple of other strategies also.

Jay
